DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1, 2, 20, 30, 47, drawn to methods and apparatus using a medium density separator.

Group 2, claim(s) 1, 3, 20, 30, 47, drawn to methods and apparatus using a classifying separator.

Group 3, claim(s) 1, 4, 13, 20, 21, 30, 47, 48, 50 drawn to methods and apparatus using a heavy medium separator.

Group 4, claim(s) 1, 5, 6, 20, 22, 30, 31, 32, 47, 49 drawn to methods and apparatus determining a set of values.

Group 5, claim(s) 1, 7, 20, 23, 30, 33, 39, 47, drawn to methods and apparatus monitoring the density of the medium.

Group 6, claim(s) 1, 8, 14, 15, 20, 26, 27, 30, 34, 42, 43, 47, 51 52 drawn to methods and apparatus monitoring the pressure of the medium.

Group 7, claim(s) 1, 9, 20, 30, 35, 47, 53, 54 drawn to methods and apparatus monitoring the feed rate of the medium and particles.

Group 8, claim(s) 1, 10, 16, 17, 20, 24, 25, 30, 36, 40, 41, 47, drawn to methods and apparatus monitoring the overall feed rate.

Group 9, claim(s) 1, 11, 18, 19, 20, 28, 29, 30, 37, 44, 45, 46, 47, 55, 56, drawn to methods and apparatus monitoring the ratio of volume or mass flow.

Group 10, claim(s) 1, 12, 20, 30, 38, 47, drawn to methods and apparatus monitoring two or more parameters.

2. The inventions listed as Groups 1-12 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The independent claims lack a special technical features as they are methods or apparatus that provide feedback control for a separator which is known in the art. This being the case the various features of the set forth sets of dependent claims exhibit the different inventive features as mentioned above.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
